EDUCATION

Duke Kunshan University (Bachelor) *Kunshan Sept 2025 – June 2029*

- **Major:** Computer Science track under Applied Mathematics and Computational Sciences **Grades:** 3.9/4.0
- **Relevant Coursework:** Python(Computer Science 101), Java & Data Structures(Computer Science 201), Calculus (Math 105), Probability and Statistics (Math 206), Economics Principles, Introduction to Chemistry

Qingdao No.2 Middle School (High School) *Qingdao Sept 2022 – June 2025*

- **Awards:** USACO Platinum (rank 1 among all participants in the same division), Paper regarding software vulnerability detection published in Darcy & Roy Press, AMC12 Honor Roll (top 5%), Third Prize for Beidou Cup Aerospace Science and Technology Innovation Competition, Qingdao Municipal Outstanding Student, First Prize in Shandong Provincial Finals of The 20th "FLTRP Cup" National English Proficiency Contest, Outstanding Volunteer in Campus Bullying Prevention Project
- **English Proficiency:** Gaokao English 138/150, IELTS 6.5

AWARDS & HONORS

AMC12 (American Mathematics Competition 12) Honor Roll (Top 5%) *Nov 2024*

- Scoring in the top 5% on the American Mathematics Competition 12.

USACO (USA Computing Olympiad) 2024 US Open Contest – Platinum *Apr 2024*

- Score on this contest was 1000/1000 (rank 1 among all pre-college participants in this division).

The 20th "FLTRP Cup" National English Proficiency Contest *Jan 2024*

- **Award:** Shandong Provincial Finals First Prize **Host:** Beijing Foreign Studies University

RESEARCH & PROJECTS

Darcy & Roy Press Paper Acceptance Published by Darcy & Roy Press *Oct 2024*

- Researched software vulnerability detection methods based on deep learning; my manuscript entitled "Research on Software Vulnerability Detection Methods Based on Deep Learning" was accepted for publication in Darcy & Roy Press.

Published in Journal of Computing and Electronic Information Management, ISSN: 2413-1660.

The 15th Beidou Cup Aerospace Science and Technology Innovation Competition **Third Prize** *Aug 2024*

- In response to the "three rural issues," I observed the detrimental effects of extreme weather on farming and envision integrating the Beidou System with agricultural mechanization to facilitate precision farming, ultimately stabilizing farmers' incomes.
- Authored relevant papers and participated in Beidou Cup Aerospace Science and Technology Innovation Competition.

EXPERIENCES

DKU iOS Club | Core Technical Member *Kunshan, China Sept 2025 – Present*

- Led students through the entire process of using Cursor and VS Code to build their own exclusive apps from scratch.
- Hosted the Music Workshop, leading students to use Unity and Steam Audio for binary audio music production.
- Served as a Teaching Assistant in the bi-weekly Coding Zone activities to solve Swift language and code-related problems.

Duke Kunshan University | MediHealth Podcast Core Member *Kunshan Oct 2025 – Present*

- Regarding "One Health" issues, conducted an exclusive interview with Global Health Professor Yiu Wing Kam, produced and released a 40-minute podcast and gained a large audience across various platforms (WeChat Official Account, Instagram, etc.).
- Hosted a roundtable discussion to facilitate deep sharing and discussion on traditional medicine with students from China, Nepal, and Indonesia, and published a podcast episode.

"Say NO to Bullying!" (Beijing Yixingzhe Charity Foundation) | Outstanding Volunteer *July 2024 – Aug 2024*

- Conducted a systematic study of bullying and shared prevention strategies from countries such as Norway and Ireland.
- Presentation materials raised awareness among junior high school students, and was honored as an outstanding volunteer.
